

Louisiana Native Wildflower Seed Mix

This seed mix contains over 65 species of rare Louisiana wildflowers and grasses. It provides ample pollinator habitats and host plants for hundreds of native animal species. Plant to provide a diverse habitat of native perennial herbaceous plant species.

To use: Sow on bare soil surface and press in lightly to establish good seed-to-soil contact. Water after planting and again with 1–2 inches of water every two weeks, depending on rainfall.

Seed Source: Louisiana Native Seed Company
